

## Grand Forum du Québec Promotional kit usage guidelines

The Grand Forum du Québec promotional kit has been created to provide you with the tools and messaging to promote the event to your networks. As active AIA Canada members, you are all representatives of our initiatives. Your participation and support in getting the word out is crucial to reaching as many industry professionals as possible.

For any inquiries or feedback regarding the promotional kit, please contact [communications@aiacanada.com](mailto:communications@aiacanada.com).

### Good to know about the event:

- Event name: Grand Forum du Québec
- Campaign landing page for the event: <https://www.aiacanada.com/events/grand-forum-du-quebec/>
- Campaign landing page for the event-specific sponsorship (for prospective sponsors; deadline to apply is November 17, 2023): <https://site.pheedloop.com/event/grandforum2024/register#category>

### Social media assets

Help us spread the word about the Grand Forum du Québec through the help of your personal and professional social media channels.

The social media assets provided can be used on LinkedIn, Facebook and X (formerly Twitter). From profile banners or in individual posts imagery that can be used on both personal and professional channels, and social media caption templates, you are well equipped to promote this program to your network.

### Guidelines to keep in mind:

- Asset names for the profile banners identify the channel they can be used on. Should you try to use a LinkedIn banner on X or Facebook, you may look at overly pixelated imagery as a result of different image size specifications required per social media platform.
- Feel free to put your own spin on the social media caption templates to reflect your brand voice, just ensure the messaging remains correct and consistent.
- **Tracked destination links in the social media caption templates are made specifically for their own individual channels.** For instance, if you use a LinkedIn tracked destination link for Facebook, it will skew the data collection for our promotional traffic analysis. Please ensure you use tracked destination links on the correct channel for best data representation.
