

Take charge of your career through Innovation in Automotive Training

Advanced driver assistance system (ADAS) training program

This program is for current licensed automotive technicians and senior level apprentices employees looking to up-skill and expand their understanding and improve their recalibration skills of ADAS.

This program consists of 16 hours of in-person theoretical and hands-on training led by College instructors.

EV up-skilling training program

This program is for current licensed automotive technicians and senior level apprentices employees looking to up-skill their EV competencies.

This program consists of in-person theoretical and hands-on training led by College instructors for 2-3 days a week.

The training will take place at the campus of your choice:

1. Conestoga College, Guelph campus
2. Fanshawe College, London campus
3. St. Lawrence College, Cornwall campus

Two free training sessions are offered:

Fall 2023

January 2024

Topics for EV up-skilling will include:

- Safety
- State of the art tools and use
- Diagnostic trouble codes
- Electric motor controls
- High voltage battery introduction
- Autonomous driver assistance systems (ADAS)

Eligibility for both the EV up-skilling and the ADAS training programs:

- 18 years of age or older;
- a Canadian citizen, Permanent resident or awaiting Permanent resident status;
- currently employed in Ontario as a licensed automotive technician or senior level apprentice;
- a resident of Ontario.
