

Working as an automotive tradesperson? Advance your career. Expand your skills. Power the future with free EV training

The *Innovation in Automotive Training* program offers **Electric Vehicle Up-skilling** training for licensed automotive technicians and senior-level apprentices in Ontario looking to build EV repair and maintenance expertise.

EV up-skilling training

This training consists of in-person theoretical and hands-on training led by College instructors and delivered as standalone 8-hour modules.

Eligibility:

- 18 years of age or older;
- a Canadian citizen, Permanent resident or awaiting Permanent resident status;
- currently employed in Ontario as a licensed automotive technician or senior level apprentice;
- a resident of Ontario.

Complete the mandatory EV Safety module and choose from specialized modules including:

- Motors and controls
- HVAC and battery thermal management
- Electric braking and driver assists
- Low voltage and network communication
- High voltage charging and control
- Drivetrain and gear reduction
- High voltage batteries

Flexible, module-based training — build the skills you need, at your pace.

Key benefits:

- Upgrade skills for EV repair and maintenance through free training
- Access to state-of-the-art equipment
- Pick and choose the training modules that fit your needs (note: safety module is mandatory)

The training will take place at the campus of your choice:

1. Cambrian College, Sudbury Campus
2. Conestoga College, Guelph Campus
3. Fanshawe College, London Campus
4. Mohawk College, Stoney Creek Campus

This training offers multiple start dates, commencing Spring/Summer 2025 and ending in March 2026.
